- **Nature and extent of involvement of faculty and students in academic affairs/ improvements**

Faculty is an integral part of the academic affairs and improvements. There exists a academic coordination committee with academic coordinator as in charge. This committee is entrusted with the responsibility of ensuring academic quality, adoption of teaching methodologies, syllabus completion, scheduling management etc. Similarly the students play an active part in course conduct. Every subject will have a subject class representative who helps distribution of study material, formation of study groups, scheduling presentations etc. Besides there is a system of continuous student feed back which is on a variety of parameters of teaching quality. This feedback is summarized and discussed with faculty concerned.

Apart from this other non teaching responsibilities are also shared by the faculty members as evident in the organization chart and processes. A number of other student committees are also formed to take care of and ensure student stake in all activities of the institute, e.g., student activity committee etc.
