TEACHERS IN-SERVICE TRAINING & WORKSHOPS

With the teaching learning undergoing a paradigm shift towards NEP-2020, the role of a teacher has become multi-dimensional and challenging more than ever before. Advances in technology and communication make it essential for teachers to re-examine their pedagogical approach and upgrade the skills to better their craft. In keeping with the significance of professional development of teachers, the in-service teacher training programme is a regular feature of KNICE.

Conclusion

The whole purpose of education is to turn mirrors into windows

- (Sydney J. Harris)

We take this opportunity to express our gratitude to all the stakeholders; school and society management, parents, for their proactive support in enabling KNICE, Karaundia to continue to meet the expectations of the society. We will continue with the spirit of inculcating ethics & ethos in young minds with aplomb and dedication even during this tough time.

To conclude, I would like to reiterate my belief with this quote by **Henry Ford: If everyone is moving forward together, then success takes care of itself.** So let's all join hands to take off on this journey to higher orbits of excellence.

“If a plant is carefully nurtured by a gardener, it will become good, and produce better fruits. Do the work with intention not because of compulsion.”
